

Guideline for watching VIA Videoconference Recordings when streamed online  
The address of VIA Video conferencing server is:

<https://viavideo.via.dk/videos>

From April 2013, VIA transferred to the new server of streamed recordings on LifeSize system and in the autumn, all the recordings will be located on this server as the new platform for video conferencing systems in VIA.

If there is no streaming going on, the field will look like this:

## "Toggle function" in views

Both in streaming and in following recordings, the view can be varied by the so-called "toggle function"

The following 6 views are available by clicking on the button at the bottom right

PC presentation relatively large  
Camera with teacher relatively small

Camera with teacher relatively large  
PC presentation relatively small

PC presentation and camera with teacher equal  
(Presentation to the left)

PC presentation and camera with teacher equal  
(Presentation to the right)

Only PC presentation shown

Only camera with teacher shown
